

Lubrication plays a vital role in keeping your plant running, so you should take every precaution to take care of your system.

Establishing a regular oil analysis programme is key to avoiding component failures and keeping equipment in the best shape possible. From detecting fuel and coolant leaks, to determining additive levels, consistent oil analysis can diagnose a variety of issues that help you prevent breakdowns and failures.

Why choose Ferrier Pumps?

Established in 1981, Ferrier Pumps are water, wastewater treatment and pumping specialists and have been serving Scotland for over 40 years. We have developed and nurtured long-standing relationships with many globally recognised brands to ensure that we can offer our clients the best available technologies to meet their specific needs.

The Benefits

Lubricant Performance Breakdown

Early Identification of Potential Problems

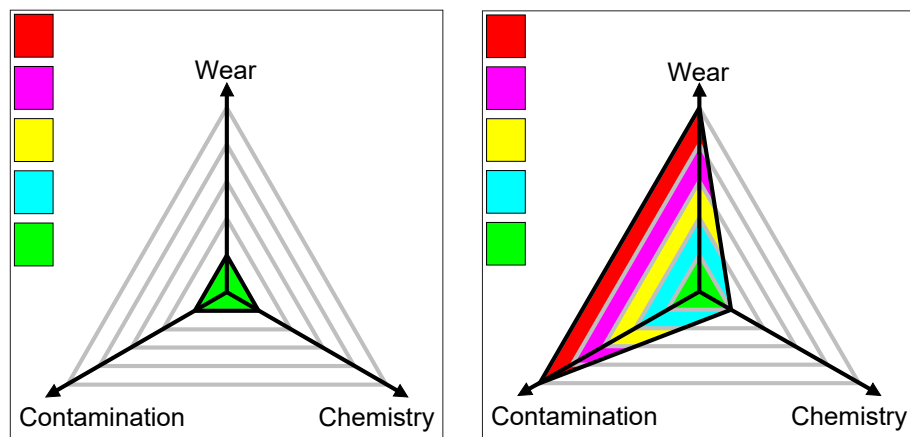

Fewer Repairs
Less Downtime

Longer Lasting Equipment

Cost Savings

Detailed Reporting

Status	Action	Caution	Healthy	Total
Oil sample points	2	6	24	32
Percentage	6.25%	18.75%	75%	100%

Key Features

- Lubricant Performance Breakdown**
 Comprehensive analysis of the oil in your equipment provides a detailed breakdown of your lubrication system's performance.
- Identifying Problems Early**
 Knowing ahead of time that an issue may occur with your equipment can save time and money. Oil analysis provides an in-depth view of the lubricant in your machinery. With consistent oil testing, small issues can be identified and dealt with before they become big problems.
- Fewer Repairs, Less Downtime**
 Most big problems with machinery start small and grow increasingly worse over time. Larger problems often require extensive repairs and often include significant downtime for your equipment and your business.
- Longer Lasting Equipment**
 Regular check-ups and maintenance greatly increase the useful life of your equipment and foster increased productivity for all your plant's operations.
- Cost Savings**
 Oil analysis can help your machinery run smoothly and your business stay strong.
